OVERVIEW

EAST CENTRAL COLLEGE offers a broad range of programs within the area of social and behavioral science. As a field, social and behavioral science explores the connections between such fundamental concerns as human developmental, social behavior and historical analysis. As part of this area's course offerings, students will be asked to think critically about these and other connections and effectively communicate their ideas.

Each program within the **ECC Social and Behavioral Science Meta-Major** is designed as a two-year transfer degree. These degrees can ultimately lead down a number of different career paths, from law enforcement and social work to educational and clinical fields, or to jobs at museums and other cultural institutions.

SUGGESTED FIRST SEMESTER SCHEDULE

The social and behavioral science programs and the suggested schedule below are intended for full-time students; however, part-time study is also available. After the first semester, students will take courses aligned with their preferred program of study. See individual fact sheets for more information.
