

Fall 2017 Spotlight Award

Becki Heimann

Generalist

Whether Becki is helping students, working with faculty & staff, or serving on committees, she gives her very best! She's respected by so many for the thorough and honest work she does. Students return to Student Services seeking out her friendly attitude and helpfulness. She goes above and beyond every day!

Knowledgeable, resourceful, willing to serve, able to turn a student from tears to a smile and calm an upset parent – these are just some of the things that I have witnessed. On the front line & often a perspective student's first contact, her smile, patience & helpfulness to students portrays what ECC is all about – serving & helping students succeed! She has been an integral part of CSA, serving not only in leadership but working hard on numerous committees and representing her colleagues. Often those who work hard behind the scenes are not recognized and Becki is one of those that has given to the betterment of ECC, it's students and staff and as one of her colleagues, I feel she should be recognized for that!

Becki goes above and beyond as a Generalist. Over the years, she has gathered a vast knowledge of financial aid, admissions, advising, and the business office. She is always thorough and goes the extra mile to help faculty, staff, students, and guests.
