THE CAREER

Registered nurses (RNs) are hands-on professionals who provide focused and highly personalized care. These professionals promote health, prevent disease and help patients and families cope with illness. They have a unique scope of practice, yet work collaboratively with all members of the healthcare team.

Registered nurses assess a patient's health and help perform diagnostic tests and analyze results. They also operate medical equipment, administer a variety of treatments and medications and assist with patient follow-up/rehabilitation. In addition, these healthcare professionals develop and manage a nursing plan of care, educate people on a variety of health issues and serve as advocates for patients, families and communities.

A majority of registered nurses practice in hospitals, though a growing number are employed in long-term care settings, out-patient surgery centers or rehabilitation centers. Others work in community health, industrial or school nursing, clinics and physician offices. The field has a variety of opportunities ranging from entry-level professional to doctoral-level researcher/practitioner.

PROFESSIONAL TRAITS

Those pursuing a registered nursing career should:

- ✓ Be caring and empathetic
- ✓ Have excellent analytical and problem-solving skills
- ✓ Be dependable, supportive and detail-oriented
- ✓ Have the emotional stability to cope with human suffering, emergencies and other stresses
- ✓ Be able to direct and supervise others

TRANSFER OPTIONS

The AAS degree is designed for students seeking employment right after graduation. However, many of the credits, particularly the general education electives earned with this degree, are accepted as transfer credit by four-year schools. Please note that these decisions are made by the bachelor degree-granting institution, not ECC. Students wanting to transfer are advised to contact the institution of their choice before beginning a program or reviewing other ECC degree plans. The college has articulation agreements with several BSN completion programs to promote a seamless progression to the next educational level.

THE PROGRAM

ECC offers a LPN to RN Bridge program leading to an Associate of Applied Science degree in nursing, designed to provide students who hold a Missouri LPN license the educational mobility to complete the RN classes in a format that specifically meets their needs. The evening and every-other-weekend format allows LPNs to still work, perhaps part-time, while taking courses.

The nursing program is two semesters in length with a one semester, bridge-specific prerequisite nursing course. All of the program prerequisites and general education requirements must be completed prior to the nursing courses. Prerequisites can be completed either part-time or full-time.

The LPN to RN Bridge program, offered at the ECC-Rolla location, utilizes some distance-learning technology to enhance access and flexibility. Upon completion, graduates are eligible to apply to write the NCLEX-RN Exam for licensure as registered nurses.

EMPLOYMENT AND SALARY INFORMATION

The registered nurse profession is experiencing faster-than-average job growth, per the U.S. Bureau of Labor Statistics. By 2024, the number of positions is expected to increase by 15 percent.

In May 2017, the median annual earnings of these professionals were \$70,000. The lowest 10 percent earned \$48,690, and the highest 10 percent earned \$104,100.

ADMISSION REQUIREMENTS*

To enter this course of study, students must meet these institution and program-specific criteria:

- ✓ High school diploma or the equivalent
(documentation must be sent to the registration office)
- ✓ Application for admission to ECC
- ✓ A placement test as specified by the college
(some coursework requires minimum placement results)
- ✓ An undisciplined Missouri LPN license
- ✓ Cumulative college GPA of 2.75 or greater
- ✓ HESI A2 Admission Test taken in the last two years with a composite score greater than 75%.
- ✓ Score of 750 or better on the HESI LPN to RN Mobility Exam in the last two years
- ✓ Completion of prerequisites with a "C" or better
- ✓ Satisfactory criminal background check and drug screening once accepted to the program
- ✓ A completed nursing application on file by the specified deadline (application is available on the ECC Web at www.eastcentral.edu/nursing/nursing)

*Detailed admission criteria information can be found in the nursing application

PROGRAM OF STUDY

The nursing program is a full-time course of study. THIS IS A SUGGESTED PLAN OF STUDY BASED ON COLLEGE READINESS PLACEMENT SCORES. The complete nursing curriculum can be found in the ECC Registered Nursing application.

PREREQUISITES/GENERAL EDUCATION

COURSE	HOURS
COL 101 Foundation Seminar	1
MTH 110 Intermediate Algebra, Contemporary Math, 140/150 Statistics (or higher)*	3
NUR 103 Successful Transitions in Nursing ^{F P}	4
ENG 101 English Comp I	3
ENG 102 English Comp II	3
BIO 206 Human Anatomy & Physiology I Lecture/Lab ^P	4
BIO 207 Human Anatomy & Physiology II Lecture/Lab	5
BIO 205 Microbiology for Allied Health Lecture/Lab ^P	4
PSY 101 General Psychology*	3
SOC 101 General Sociology*	3
HIS 101/ HIS 102/ PSC102 History or Political Science Requirement	3
PSC CIVICS Civics Achievement Exam (pass/fail)	0
Total Hours	36

^F Course is only available during Fall semester

^S Course is only available during Spring semester

^P Course has prerequisites:

- Prerequisites for Human Anatomy & Physiology I and II Lecture/Lab:
 - CHM 106 Chemistry for Health Science Lecture/Lab or one year High School Chemistry with a "C" or better (within five years)
 - BIO 111 General Biology Lecture/Lab or two years high school biology with lab (must have at least a "C" grade within the last five years)
- Prerequisites for Microbiology
 - BIO 111 General Biology Lecture/ Lab or two years high school biology with lab (must have at least a "C" grade within the last five years)
- Prerequisites for Successful Transition in Nursing
 - Current undisciplined Missouri LPN license or eligible to sit for NCLEX-PN
 - Intermediate Algebra, Contemporary Math, or Statistics
 - LPN to RN Mobility Exam
 - HESI 2A Entrance Exam

ALL science courses MUST be no more than five years old with a grade of "C" or better.

NURSING PROGRAM

SPRING SEMESTER

COURSE	HOURS
NUR 201 Nursing of Adults & Children II Lecture ^s	5.5
NUR 202 Nursing of Adults & Children II Lab ^s	4.5
Total Hours	10

SUMMER SEMESTER

No formal coursework. Students will be required to complete an established remediation plan.

FALL SEMESTER

NUR 231 Nursing of Adults & Children III Lecture ^F	5
NUR 232 Nursing of Adults & Children III Lab ^F	5
NUR 291 Nursing Trends ^F	1
Total Hours	11

ADDITIONAL INFORMATION

In order to achieve success in this program, a student can expect to spend a minimum of 20-30 hours per week, outside of class, studying and preparing for class and clinical experiences. Some examples include: practicing skills in the lab, preparing for clinical assignments, studying for exams, preparing for class, developing written assignments and presentations.

Additional Recommended Courses

- HSC 103 Nutrition
- COM 101 Oral Communication or COM 116 Public Speaking
- PSY 250 Human Development
- PHL 203 Ethics
