# CERTIFICATE/ASSOCIATE DEGREE PARAMEDIC PROGRAM UNION AND ROLLA

**Thank you for your interest in our Paramedic Program.** Enclosed is the application packet. This packet includes information you will need to read and forms you will need to complete and return if you would like to begin the application process.

The East Central College Paramedic Technology Program is fully accredited by CoAEMSP. As identified in the packet, it is a 57.5-credit hour certificate program or 72.5-74.5—credit hour Associate of Applied Science Degree in Paramedic Technology (including pre-requisites) that encompasses on-campus classroom and laboratory hours as well as clinical experience in a variety of local hospitals and facilities. Once selected for admission into the program, students should complete the full-time Paramedic program in two years. General education courses may be completed on a full-time or part-time basis prior to or during the program. Upon graduation, students are eligible to apply and sit for the national exam NREMT to obtain a Paramedic license. Any student completing the Paramedic program will automatically complete a Certificate of Achievement of Paramedic Technology.

To be considered for admission into East Central College's Paramedic Technology program you must have completed high school, or equivalent, and be admitted as an East Central College student (separate application). To apply to the paramedic program, return the attached application to East Central College, Nursing and Allied Health, 1964 Prairie Dell Road, Union, MO 63084-4344. Applications must be submitted on an annual basis and are only good for one admission cycle.

<u>APPLICATION DEADLINE:</u> The ECC Paramedic Program is approved to accept students into the program each Fall semester. *The deadline for application is August 1st of the year you intend to start the paramedic program and all transcripts must be on file by August 16<sup>th</sup> of the same year.* 

For consideration, applicants must meet the following minimum criteria:

- 1. Minimum cumulative GPA of a 2.0 or greater for students who have previously attended college.
- 2. Pre-requisite coursework completed with a "C" or better. Pre-requisite coursework <u>must be completed by the end of the summer semester (August) before</u> Fall admission into the program. See curriculum page in this application packet for more detail.
- 3. Three (3) appropriate references on file (only one reference per page; do not copy double-sided.) (See application for guidelines regarding references).
- 4. Official transcripts received and evaluated for program, as well as proof of enrollment, if coursework is taken at another institution. Applications will not be considered if official transcripts have not been evaluated by August 16<sup>th</sup>, 2025. It is the applicant's responsibility to check their MyECC account to determine the status of their ECC transcript.
- 5. Must be in a state of physical and mental health compatible with the responsibilities of a paramedic career. A physical examination, including selected diagnostic tests and immunizations, is required upon acceptance into the program (a form is provided in acceptance packet).

**6.** Admission is contingent upon a successful criminal background check and a satisfactory drug screening. The procedures are completed after the paramedic acceptance packet has been received.

It is the *applicant's responsibility* to verify with the Nursing and Allied Health office that the application file is complete. <u>Incomplete application files will not be considered for admission</u>.

All college coursework, pertinent to the Paramedic program, <u>MUST</u> be completed with a grade of "C" or better. All science courses must be no older than 5 years at the time of acceptance.

All applicants will be notified of acceptance by phone call and email two weeks prior to class starting.

If you have any questions, please contact the Nursing and Allied Health (Union) at (636) 584-6616 or via e-mail at <a href="mailto:Jenifer.Goodson@eastcentral.edu">Jenifer.Goodson@eastcentral.edu</a>. Paramedic program information is also available on our website at <a href="mailto:Paramedic Technology - Nursing & Allied Health - East Central College">Paramedic Technology - Nursing & Allied Health - East Central College</a>. Paramedic Technology Fact Sheet

Best of luck with your educational endeavors and please let us know if we can be of assistance.

Jenifer Goodson, B.S, Paramedic

**EMS Program Director**

### East Central College Certificate/Associate Degree Paramedic Program

# Summary of ECC Paramedic Drug Screening, Immunization and Physical Examination Policies

### Criminal History

As a requirement of the application process for the East Central College Paramedic Program, in response to RSMo 660.317b and 660.315, students accepted into the program will be required to consent to release of their criminal history records (RSMo 43.450) for the sole purpose of determining the applicant's ability to enter patient care areas in order to fulfill the requirements of the Paramedic program. Any student who is found to have a criminal history for a felony conviction, as defined by state law, or is found to be on one of the governmental sanction lists, will not be accepted nor allowed to continue enrollment in the ECC Paramedic Program. Acceptance into and completion of the program does not guarantee licensure. In addition, any conviction may affect a student's ability to be placed in a clinical site and a graduate's ability to sit for the NREMT Examination or attain State Licensure. Students currently serving probation are ineligible for admission and may be ineligible for admission if the criminal offense is recent in nature.

### Drug Screening

The purpose of the ECC Paramedic Program Drug Testing Policy is to ensure that students entering the Program are drug- and alcohol-free and to comply with the Drug-Free Schools and Communities Act Amendments of 1989. Offers of acceptance to the Paramedic Program are made as conditional offers. Applicants may be denied admittance if a positive drug screen is detected. An applicant who refuses to authorize and pay for testing, or who tests positive for drugs, alcohol, or controlled substances, may not receive a final offer of admission. A current Paramedic student who refuses to authorize and pay for testing, or who tests positive for drugs, alcohol, or controlled substances, may not be allowed to continue in the Paramedic program. A positive drug screen during the professional years may disqualify a student from participating in required coursework involving client interaction and will affect the student's ability to complete the program.

### Immunizations and Physical Examination

The purpose of the ECC Paramedic Program Immunizations and Physical Examination Policy is to ensure that students entering the Program are in a state of physical and mental health compatible with the responsibilities of a career in emergency medical services and in general, working with individuals in a healthcare or other provider environment. Upon acceptance to the program, all incoming paramedic students are required to have a physical examination and certain immunizations (forms will be provided) to comply with ECC and clinical site-specific policies. Record of childhood immunizations are sufficient; however, if not available or insufficient, proof of immunity/re-immunization is required at the student's expense. Applicants may be denied admittance if they are not in a state of physical and mental health compatible with the responsibilities of a career as a paramedic and/or if they do not receive the proper immunizations.

### **Graduate Learning Outcomes**

Upon successful completion of the ECC Paramedic Program, the graduate will be eligible to sit for the NREMT Cognitive Exam to become a registered paramedic. Upon passing the exam, graduates will be eligible to apply for a Missouri state license. See Performance Standards for more information.

## Functional Job Analysis Per the National Highway Traffic Safety Administration

### **Paramedic Characteristics**

\*The Paramedic must be a confident leader who can accept the challenge and high degree of responsibility entailed in the position. The Paramedic must have excellent judgement and be able to prioritize decisions and act quickly in the best interest of the patient, must be self-disciplined, able to develop patient rapport, interview hostile patients, maintain safe distance, and recognize and utilize communication unique to diverse multicultural groups and ages within those groups. Must be able to function independently at optimum level in a non-structured environment that is constantly changing. Even though the Paramedic is generally part of a two- person team generally working with a lower skill and knowledge level Basic EMT, it is the Paramedic who is held responsible for safe and therapeutic administration of drugs including narcotics. Therefore, the Paramedic must not only be knowledge about medications but must be able to apply this knowledge in a practical sense. Knowledge and practical application of medications include thoroughly knowing and understanding the general properties of all types of drugs including analgesics, anesthetics, anti-anxiety drugs, sedatives and hypnotics, anti-convulsant, central nervous stimulants, psychotherapeutics which include antidepressants, and other anti-psychotics, anticholinergics, cholinergic, muscle relaxants, anti-dysrhythmics, anti-hypertensives, anticoagulants, diuretics, bronchodilators, ophthalmic, pituitary drugs, gastro-intestinal drugs, hormones, antibiotics, antifungals, anti-inflammatories, serums, vaccines, anti-parasitic, and others.

\*The Paramedic is personally responsible, legally, ethically, and morally for each drug administered, for using correct precautions and techniques, observing, and documenting the effects of the drugs administered, keeping one=s own pharmacological knowledge- based current as to changes and trends in administration and use, keeping abreast of all contraindications to administration of specific drugs to patients based on their constitutional make-up, and using drug reference literature.

\*The responsibility of the Paramedic includes obtaining a comprehensive drug history from the patient that includes names of drugs, strength, daily usage, and dosage. The Paramedic must take into consideration that many factors, in relation to the history given, can affect the type of medication to be given. For example, some patients may be taking several medications prescribed by several different doctors and some may lose track of what they have or have not taken. Some may be using non-prescription/over the counter drugs. Awareness of drug reactions and the synergistic effects of drugs combined with other medicines and in some instances, food, is imperative. The Paramedic must also take into consideration the possible risks of medication administered to a pregnant mother and the fetus, keeping in mind that drugs may cross the placenta.

\*The Paramedic must be cognizant of the impact of medications on pediatric patients based on size and weight, special concerns related to newborns, geriatric patients, and the physiological effects of aging such as the way skin can tear in the geriatric population with relatively little to no pressure. There must be an awareness of the high abuse potential of controlled substances and the potential for addiction, therefore, the Paramedic must be thorough in report writing and able to justify why a particular narcotic was used and why a particular amount was given. The ability to measure and remeasure drip rates for controlled substances/medications is essential. Once medication is stopped or not used, the Paramedic must send back unused portions to proper inventory arena.

\*The Paramedic must be able to apply basic principles of mathematics to the calculation of problems associated with medication dosages, perform conversion problems, differentiate temperature reading between centigrade and Fahrenheit scales, be able to use proper advanced life support equipment and supplies (i.e. proper size of intravenous needles) based on patient=s age and condition of veins, and be able to locate sites for obtaining blood samples and perform this task, administer medication intravenously, administer medications by gastric tube, administer oral medications, administer rectal medications, and comply with universal pre-cautions and body substance isolation, disposing of contaminated items and equipment properly.

\*The Paramedic must be able to apply knowledge and skills to assist overdosed patients to overcome trauma through antidotes and have knowledge of poisons and be able to administer treatment. The Paramedic must be knowledgeable as to the stages drugs/medications go through once they have entered the patient's system and be cognizant that route of administration is critical in relation to patients' needs and the effect that occurs.

\*The Paramedic must also be capable of providing advanced life support emergency medical services to patients including conducting of and interpreting electrocardiograms (EKGs), electrical interventions to support the cardiac functions, performing advanced endotracheal intubations in airway management and relief of pneumothorax and administering of appropriate intravenous fluids and drugs under direction of off-site designated physician.

\*The Paramedic is a person who must not only remain calm while working in difficult and stressful circumstances but must be capable of staying focused while assuming the leadership role inherent in carrying out the functions of the position. Good judgement along with advanced knowledge and technical skills are essential in directing other team members to assist as needed. The Paramedic must be able to provide top quality care, concurrently handle high levels of stress, and be willing to take on the personal responsibility required of the position. This includes not only all legal ramifications for precise documentation, but also the responsibility for using the knowledge and skills acquired in real life-threatening emergency situations.

\*The Paramedic must be able to deal with adverse and often dangerous situations which include responding to calls in districts known to have high crime and mortality rates. Self-confidence is critical, as is a desire to work with people, solid emotional stability, a tolerance for high stress, and the ability to meet the physical, intellectual, and cognitive requirements demanded by this position.

### **Physical Demands**

Aptitudes required for work of this nature are good physical stamina, endurance, and body condition that would not be adversely affected by frequently having to walk, stand, lift, carry, and balance at times, in excess of 125 pounds. Motor coordination is necessary because over uneven terrain, the patient's, the Paramedic's, and other workers= well-being must not be jeopardized.

#### **Comments**

The Paramedic provides the most extensive pre-hospital care and may work for fire departments, private ambulance services, police departments or hospitals. Response times for nature of work are dependent upon nature of call. For example, a Paramedic working for a private ambulance service that transports the elderly from nursing homes to routine medical appointments and check-ups may endure somewhat less stressful circumstances than the Paramedic who works primarily with 911 calls in a district known to have high crime rates. Thus, the particular stresses inherent in the role of the Paramedic can vary, depending on place and type of employment.

However, in general, in the analyst=s opinion, the Paramedic must be flexible to meet the demands of the ever-changing emergency scene. When emergencies exist, the situation can be complex and care of the patient must be started immediately. In essence, the Paramedic in the EMS system uses advanced training and equipment to extend emergency physician services to the ambulance. The Paramedic must be able to make accurate independent judgements while following oral directives. The ability to perform duties in a timely manner is essential, as it could mean the difference between

By signing below, I acknowledge the information in this application is complete and accurate to the
best of my knowledge. I know of no reason that I would be denied the opportunity to sit for the
National Registry Examination following successful completion of the Paramedic curriculum.

Student Signature Date
------------------------

### CHECKLIST FOR ADMISSION TO THE CERTIFICATE/ASSOCIATE DEGREE IN PARAMEDIC

NOTE: Students who have ever been admitted to any Paramedic Program previously must produce a Letter of Recommendation from the previous Paramedic /Director. Students who have had two (2) attempts to  $\underline{ANY}$  Paramedic program are not eligible for admission.

To INITIATE the application process, the student MUST complete the following requirements:

1. APPLY FOR GENERAL ADMISSION TO THE COLLEGE (Declare Major:
Paramedic Technology). To apply, visit the East Central College website:
https://admissions.eastcentral.edu. If you have questions regarding the college
application, please contact Admissions at 636-584-6588.
 2. PROVIDE OFFICIAL HIGH SCHOOL, TECHNICAL SCHOOL & COLLEGE
TRANSCRIPTS. Applicant must request that official transcripts from high school or
GED (scores required) <i>and <u>all</u></i> colleges attended be sent to ECC <b>Student Services</b> for evaluation. Evaluating transcripts can be time consuming so please allow ample time for
processing. Failure to request your transcripts in a timely manner may result in an
incomplete application file.
3. SUCCESSFUL COMPLETION OF ALL PRE-REQUISITE COURSEWORK with a
grade of "C" or better. Pre-requisite coursework must be completed by the end of the summer
semester (July) before Fall admission into the program.
4. CUMULATIVE COLLEGE GRADE POINT AVERAGE (GPA) OF 2.00 (MINIMUM) for a college
course work.
_ 5. COMPLETE THE APPLICATION FOR Paramedic Program
6. THREE (3) COMPLETED APPROPRIATE REFERENCES (only one reference per
page; do not copy double-sided.) (See paramedic application and reference form for
criteria); the applicant is responsible for distributing references. It is the applicant's
responsibility to check with the Allied Health Office to make sure that the references
have been received by the August1 <sup>st</sup> deadline. Applicants who have had prior admission into <u>any</u> Paramedic program must have a letter of reference from the
Paramedic Director from that program accompanying their application.
7. SIGNED TECHNOLOGY ACKNOWLEDGEMENT FORM.
8. SUBMIT A COVER LETTER AND RESUME'
9. SCHEDULE APPROXIMATELY 2-3 HOURS TO TAKE PRE-COURSE ASSESSMENTS.
- Will not affect entry into program.
 10. MANDATORY MEETING WITH PROGRAM DIRECTOR, Jenifer Goodson, to discuss the

application process, program expectations, and to register for classes.

## AFTER ACCEPTANCE INTO THE PARAMEDIC PROGRAM THE FOLLOWING WILL BE REOUIRED:

- 1. DRUG SCREENING (site determined by ECC)
- MEDICAL EXAMINATION with Satisfactory Results (Departmental form provided).
   Must be in a state of physical and mental health compatible with the responsibilities of
   a paramedic career. A physical examination including selected diagnostic tests and
   immunizations, is required after acceptance at your cost (the form is provided in the acceptance
   packet).
- 3. SATISFACTORY FINGERPRINT/CRIMINAL BACKGROUND CHECK
- 4. **CURRENT CPR CARD** (BLS) Basic Life Support (for Healthcare Provider) from American Heart Association or approved by EMS Program Director
- 5. CURRENT MISSOURI EMT LICENSE
- 6. MANDATORY ORIENTATION:

  MONDAY, AUGUST 18, 2025, 8:30 am 4:30 pm

  If you do not attend this orientation, you will NOT be allowed to continue in the program.

NOTE TO ALL STUDENTS: It is the *RESPONSIBILITY of the STUDENT* to maintain communication with the Nursing and Allied Health office to ensure that the application folder is complete and up to date with current admission requirements. You may call (636) 584-6616 or e-mail michelle.north@eastcentral.edu. Admission to the program is not guaranteed. Applicants can improve their chances of admission by maintaining a high GPA, completing pre- and corequisite courses. *It should be understood that satisfactorily meeting minimum requirements does not automatically guarantee admission*.

Successful completion of the Paramedic program DOES NOT guarantee eligibility to take the licensure examination. One of the functions of the Missouri Bureau of EMS is to protect the public. The Bureau of EMS may refuse licensure to applicants who may jeopardize the well-being of Missouri citizens. The Missouri Bureau of EMS may refuse to issue any license for the cause(s) outlined in the Missouri Bureau of EMS Law 190.142.

### Code of Ethics for EMS Practitioners

Professional status as an Emergency Medical Services (EMS) Practitioner is maintained and enriched by the willingness of the individual practitioner to accept and fulfill obligations to society, other medical professionals, and the EMS profession. As an EMS practitioner, I solemnly pledge myself to the following code of professional ethics:

- To conserve life, alleviate suffering, promote health, do no harm, and encourage the quality and equal availability of emergency medical care.
- To provide services based on human need, with compassion and respect for human dignity, unrestricted by consideration of nationality, race, creed, color, or status; to not judge the merits of the patient's request for service, nor allow the patient's socioeconomic status to influence our demeanor or the care that we provide.
- To not use professional knowledge and skills in any enterprise detrimental to the public well-being.
- To respect and hold in confidence all information of a confidential nature obtained in the course of professional service unless required by law to divulge such information.
- To use social media in a responsible and professional manner that does not discredit, dishonor, or embarrass an EMS organization, co-workers, other health care practitioners, patients, individuals, or the community at large.
- To maintain professional competence, striving always for clinical excellence in the delivery of patient care.
- To assume responsibility in upholding standards of professional practice and education.
- To assume responsibility for individual professional actions and judgment, both in dependent and independent emergency functions, and to know and uphold the laws which affect the practice of EMS.
- To be aware of and participate in matters of legislation and regulation affecting EMS.
- To work cooperatively with EMS associates and other allied healthcare professionals in the best interest of our patients.
- To refuse participation in unethical procedures and assume the responsibility to expose incompetence or unethical conduct of others to the appropriate authority in a proper and professional manner.

"I have read the Code of Ethics for Paramedic Program.	EMS Practitioners and agree to ablde by these ethics thro	ugnout the

## East Central College Associate Degree Paramedic Program

### Acknowledgement of Technology Requirements Form

<u>To the applicant</u>: Review this form to indicate you understand the technology requirements of the Paramedic Program. Sign and return the form with your paramedic application by the August 1<sup>st</sup> deadline.

The East Central College Paramedic Program utilizes e-technologies to deliver a portion of course content and as a means of communication with program students, faculty, and staff. Through a combination of didactic coursework, classroom/laboratory practice, and clinical experiences, students will learn the profession of paramedics. Aspects of all of these learning environments will require familiarity with internet-based technologies. In addition to internet-based technologies, interactive television will also be utilized to convey course content for some course content between the Union Campus and Rolla location. Specialty topics may have a significant portion delivered with this technology. This allows students to experience the highest level of paramedic expertise for instructional purposes.

Offers of acceptance to the ECC Paramedic Program are made as conditional offers. In addition, to the satisfactory completion of pre-requisite courses, a satisfactory background check, and a negative alcohol, drug, and/or controlled substance test, applicants are required to acknowledge the integral use of technology in the delivery of this program. Technologies include, but are not limited to; internet, e-mail, Canvas, interactive television (ITV), online database searching, web-based lecture capture, internet streaming video review, and other e- technologies as assigned as integral components of the Paramedic Program. While many of these technologies are accessible through any computer with access to the internet, students may be required to travel to the Union campus or Rolla location to attain consistent, high-speed access compatible with viewing of content-specific materials. Students are also required to attend classes on campus delivered through the ITV format.

Students are NOT required to have a personally owned computer or home-based high-speed internet access as these materials and services are made readily available at either the Union or Rolla location. However, current paramedic students report that personally owned laptop computers and access to high-speed internet connections in their homes leads to increased satisfaction and a more convenient and accessible learning environment.

I have read and understand the above technology requirements related to the ECC Paramedic Program and hereby acknowledge that in order to successfully complete the program I will need to utilize said technologies for communication with program faculty and staff, access to course content, assignment submission, and dialogue with fellow classmates and colleagues in these virtual environments.
