*\*Limited Seating. Breakfast Served.*

- Understand the realities of cyber risk, learn steps to safeguard your operation and access resources to implement a cyber security program in your business.
- Small-business owners can learn about what they should know and do to **lessen the risk** of their business being hacked or compromised by a cyber security incident at a seminar co-sponsored by the MU Extension Franklin County - Small Business and Technology Development Center (SBTDC), East Central College and United Bank of Union.
- Access a tool to assess the strength of your cyber security as well as identifying areas for improvement.
- Learn insights and perspectives from professionals in the financial sector.
- Obtain resources and build a **solid foundation** for this critical aspect of your operation.
