Certified Logistics Training

9 a.m. - 1 p.m. • BIC 124

The purpose of the Certified Logistics Technician (CLT) certification program is to recognize individuals who demonstrate mastery of the core competencies of material handling at the front-line (entry-level to front-line supervisor) through successful completion of the certification assessments. The goal of the CLT certification program is to raise the level of performance of logistics technicians and to help employers ensure their workforce increases the company's productivity and competitiveness.
