

## Center for Workforce Development

# Basic Hydraulics & Pneumatics Training

*Aug. 23-Oct. 4 • 8:00 a.m. - 11:30 a.m. • Fridays Only*

The course will focus on safety concerns when working with fluid systems and reading schematics for fluid systems. In addition, we will cover the basic laws and principles governing fluid systems and identify components used in fluid systems and their operation. The first four weeks will cover hydraulics and the second four weeks we will cover pneumatics.

**REGISTER TODAY!**  
**\$1,800 per person**

Training will be at the ECC Rolla North Campus, room RNT 114
