## CNC MACHINING CENTER PRODUCTION TECHNICIAN

### MACHINE THE WORLD

Computer numerical control (CNC) machining center production technicians transform raw materials into finished parts used in commercial, automotive, medical, and aerospace products. CNC machining center production technicians produce parts that range from simple bolts of steel to titanium bone screws for orthopedic implants.

CNC machining center production technicians work from blueprints, or computer-aided design (CAD), and computer-aided manufacturing (CAM) files. They set up and operate CNC machine tools, monitor the feed rate and speed of machines, and measure, examine, and test completed products for defects.

### INCOME OPPORTUNITY

Salaries for CNC Machining Center Production Technicians ranges from \$25,000 to \$57,750. \*
